

MONU KUMAR

FRONTEND DEVELOPER

PROFESSIONAL SUMMARY

I am a dedicated and creative front-end web developer with a passion for building modern, responsive websites and digital experiences. With years of hands-on experience in technologies like React, JavaScript, and TailwindCSS, I specialize in crafting clean UI/UX, interactive animations, and performance-optimized web solutions.

WORK EXPERIENCE

Freelance Web Developer 2025 – Present

- Designed and developed responsive websites using React, JavaScript, and TailwindCSS
- Created smooth UI/UX experiences and interactive animations to enhance user engagement
- Optimized website performance and SEO to boost search visibility and user retention
- Integrated RESTful APIs and third-party services, which improved data retrieval efficiency by 50%, and enabled new features that were used by 10+ internal engineering teams.

Web Development Intern (Personal Projects & Training) 2024 – 2025

- Built multiple front-end projects during training, focusing on clean code, component-based architecture, and responsive design
- Collaborated with peers to develop real-world clones and portfolio websites simulating professional work environments
- Gained hands-on experience in version control (Git/GitHub), debugging, and deploying websites

ACADEMIC HISTORY

Full-Stack Web Development & DSA Trainee

Sheriyans Coding School | 2025 – Present

- Learning MERN Stack (MongoDB, Express.js, React, Node.js) with a strong focus on Data Structures & Algorithms (DSA)
- Building real-world full-stack projects and practicing problem-solving on platforms like LeetCode
- Developing both front-end and back-end skills with hands-on mentorship
-

Self-Taught Front-End Developer 2024 to Present

- Built strong foundations in HTML, CSS, JavaScript, React, and TailwindCSS
- Created multiple responsive and animated projects
- Actively learning via YouTube, blogs, freeCodeCamp, and documentation
-
